range of solutions such as bank syndication and bank fronting - on a global scale, not just within the EU.

The ICE Awards celebrate companies that strive for excellence and drive the industry forward. This is an opportunity for Howden to be part of that drive to achieve excellence and show we are proud to be part of an industry that continuously pushes the boundaries of innovation and quality. Our experience has been very positive, it has provided us with a strong platform to enable us to demonstrate our commitment and support to the industry.

Sponsoring the ICE Awards has brought numerous benefits. It has provided a strong marketing partnership, significantly increased our visibility among some of the largest and most successful contractors in the construction industry, and has greatly enhanced our brand recognition and reputation.

Our clients have responded very positively to the ICE Awards, recognising the value of an event that celebrates industry excellence based on merit. It was a super venue and a fantastic night which was enjoyed by all who attended. We would like to congratulate the ICE Awards team on such an outstanding event which just seems to be growing from strength to strength.

Autodesk Construction Cloud™

Autodesk Construction Cloud™ combines advanced technology and predictive insights to connect people and data across the building lifecycle, from design through operations. Powerful, simple and purpose-built collaboration solutions include Autodesk Build, Autodesk Takeoff and Autodesk BIM Collaborate, and Autodesk Docs ensuring main contractors, specialist contractors, owners and designers can work efficiently together within a common data environment.

Autodesk was proud to sponsor the ICE Awards, recognising and celebrating the achievement of excellence within the Irish design and make industries.

Brian Roche, Account Executive at Autodesk, said: “We were thrilled to be Gold Sponsors of the 2025 ICE Awards. It was an impressive evening and a real pleasure to be surrounded by so many companies and individuals who are innovating at pace and achieving so much, while building for a better tomorrow.”

Skillnet MMC Accelerate

Skillnet MMC Accelerate combines a new online platform, with a series of in-person events across Ireland, providing individuals and businesses with the tools and insights needed to embrace Modern Methods of Construction (MMC). Whether you’re looking to explore MMC or deepen your expertise, this new platform will provide industry insights, research, development and support, and signpost anyone interested in MMC Skills and Training to related courses nationally, helping those in

the sector accelerate their expertise in the evolving world of MMC while the regional events bring the conversation face-to-face with industry leaders from across the country.

Skillnet MMC Accelerate chose to align with the ICE Awards because they celebrate innovation, quality, and leadership in Irish construction. Supporting excellence in the industry means empowering individuals and organisations to embrace new ways of working.

Being a sponsor of the ICE Awards has been a rewarding experience. It has allowed us to engage with industry leaders, celebrate outstanding achievement, and showcase the role of MMC in shaping Ireland’s future.

We are committed to supporting the ongoing upskilling of professionals within the construction industry and fostering innovation that advances the sector as a whole.

Connex Offsite

As a Gold Sponsor of the ICE Awards 2025 in Dublin, Connex Offsite was honoured to support an event that celebrates excellence, innovation, and achievement across the Irish construction industry. The evening provided a meaningful opportunity to connect with industry peers and recognise the remarkable work shaping the future of our built environment.

At Connex Offsite, we believe in transforming construction through precision, sustainability, and collaboration. Our commitment to modern methods of construction is driven by a vision to deliver smarter, faster, and greener building solutions that meet the evolving needs of communities and clients alike.

The ICE Awards continue to be a vital platform for recognising leadership and setting new benchmarks in quality and performance. We are delighted to support this important initiative and to play a part in celebrating those who are pushing the boundaries of what’s possible in our industry.

Brendan Doherty, Fiona Shields, Kenny Toner, Brian Mc Donnell, Sarah Tumilty, Michelle Keenan, Kacper Kosny, Jody Crilly, Mark Gillion and David Shannon (Connex Offsite)

Dulux Trade

Dulux Paints is the leading supplier of quality interior and exterior paint products, operating in Ireland for over 140 years and part of AkzoNobel since 2008, a leading global manufacturer and distributor of paints and coatings for Residential, Commercial, and Industrial use. The Dulux Trade Ireland portfolio has a broad offering of high-performance products, which address the Irish construction industry needs for VOC Free and sustainable solutions ensuring award winning finishes to projects across Ireland. We are the leading innovator in this space with a dedicated Trade and Specification resource, collaborating closely with Architects and Construction companies to deliver sustainable and bespoke solutions for client projects along with delivering CPDs on relevant industry standards through our Dublin based Dulux Academy. We are delighted to support the recognition of performance excellence for construction in Ireland with our sponsorship of the ICE Awards.

Soprema Ireland

SOPREMA Ireland is a trusted provider of waterproofing, roofing, and insulation systems tailored for modern construction. With proven solutions for warm, cool, and green roofs, SOPREMA Ireland supports contractors, architects and developers through expert technical guidance and dependable on-site performance.

As Gold Sponsors of the ICE Awards 2025, SOPREMA Ireland proudly supported the Engineering Design Excellence categories. This sponsorship reflects SOPREMA Ireland’s commitment to smart, scalable design and technical excellence across the industry.

The experience of sponsoring the ICE Awards was extremely positive. It offered strong industry visibility and an opportunity to align with a platform that celebrates quality, innovation, and achievement in Irish construction. SOPREMA Ireland was honoured to take part in such a well-respected event and values the opportunity to support recognition in the industry – highlighting the people and projects driving standards forward in Irish construction.

CPAS

CPAS is the dedicated pension administrator for the Irish construction sector, providing tailored retirement solutions through CERS, CWPS, and Milestone Advisory. We support employers and employees across the industry with compliant, cost-effective pension and financial advisory services.

We chose to sponsor the Health, Safety & Wellbeing Initiative category at the ICE Awards because it reflects our broader mission — supporting those who build Ireland, not just in retirement, but throughout their working

lives. Health, safety, and financial wellbeing are essential pillars of a sustainable workforce, and we’re proud to celebrate organisations leading in this space.

Being a sponsor at the ICE Awards has been a rewarding experience, offering us the opportunity to engage with leaders driving positive change in construction.

At CPAS, we believe that long-term financial security begins with a safe and supported working environment. That’s why we’re committed to recognising and championing excellence in every corner of the industry.

Revizto

Revizto offers a unified collaboration platform designed to streamline communication, enhance coordination, and improve decision-making throughout the entire lifecycle of a construction project. Our cloud-based solution integrates 2D sheets, 3D models (BIM/VDC), and project data into a single, accessible environment. This enables Irish construction teams – from design and pre-construction to site management and handover – to; Improve communication and reduce errors: By centralising all project information and providing powerful issue tracking tools. Enhance BIM collaboration: Facilitating seamless information sharing and clash detection between different disciplines. Optimise site management: Enabling access to up-to-date drawings, models, and progress tracking directly on site. Streamline quality control: Through visual issue tracking and progress monitoring. Facilitate efficient handover: Providing a comprehensive digital record of the project.

Ultimately, Revizto empowers Irish construction professionals to build better, faster, and more efficiently, leading to reduced costs and improved project outcomes.

Revizto is proud to support the Irish Construction Excellence Awards, which recognise and celebrate innovation, professionalism, and outstanding achievement in the Irish construction industry. As a platform that enables seamless collaboration, efficient workflows, and data-driven decision-making, Revizto aligns naturally with the Awards’ mission to promote excellence across the sector.

Our experience as a sponsor has been incredibly rewarding. The event is exceptionally well-organised and brings together the most passionate and forward-thinking professionals in the industry. It offers a valuable opportunity to connect with leaders, learn from innovative projects, and demonstrate how Revizto supports better project delivery through BIM and digital workflows.
